Enjoy!

These are science themes worksheets about the Earth, Space, daytime and nighttime.

Just print and teach!

Name: _____

What is space?

Space is very big and has many stars, planets, and other things. It's where Earth is, and we can learn about it by looking at the sky or using telescopes.

Directions: Draw a picture of what you see in the sky.

SPELL IT:
space

Name: _____

My World

Directions: Color the word. Match the picture.

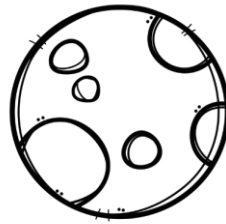

Earth

Earth

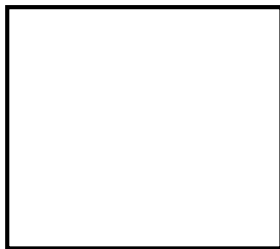

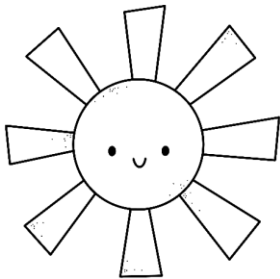

Moon

Moon

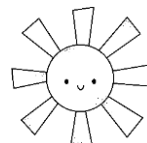

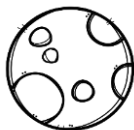

Sun

Sun

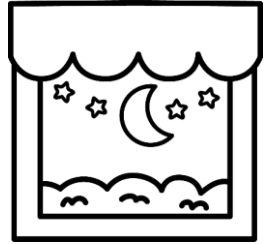

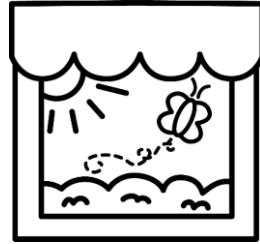

Stars

Stars

Name: _____

What is day and night?

Day and night happen because the Earth spins. When your part of the Earth faces the sun, it's daytime.

When it faces away from the sun, it's nighttime.

Directions: Draw a picture of what you do in the daytime and nighttime.

SPELL IT:

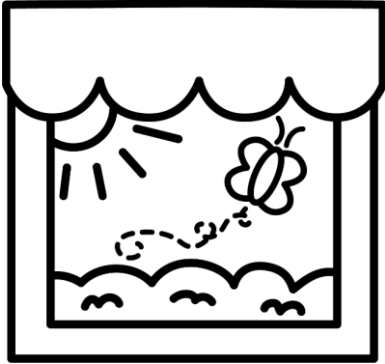

day and night

Name: _____

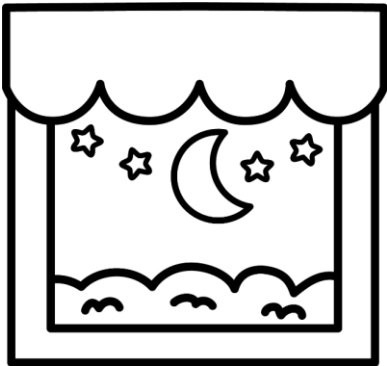

When Do You See It?

Directions: Match the pictures of when you see each object.

Daytime

Nighttime

clouds

stars

sun

moon
